

KAMUZU UNIVERSITY
OF HEALTH SCIENCES

TRAINING OPPORTUNITY
BASICS OF RESEARCH DATA
MANAGEMENT

**Facilitation: Research Support
Centre**

**Dates: 29th - to 31st October,
2024**

**Venue: Kamuzu University of Health Sciences, Lilongwe
Campus**

Kamuzu University of Health Science's Research Support Centre strives to build capacity to administer Research and Grants. One strategy is to deliver various training courses. This time around, we are offering a training course in the basics of research data Management. This will equip participants with the Data Management skills needed to manage health research Data to safeguard the integrity and enhance the quality of the data collected in clinical and biomedical scientific research.

Who should apply: Data Managers, Data Officers, Quality Assurance Officers, Quality Control Officers, Principal Investigators and other logisticians who develop study protocols, Project Managers, Study Nurses involved in Data Collection, Study coordinators responsible for day-to-day field activities, and Study Monitors.

About the course: The Course will cover modules from data management planning, to data reporting. The following aspects will be covered:

- Principles of Data Management
- Developing a Data Management Plan for a study
- Types of Research Documents
- Data Entry
- Data Audits
- Data Validation/Cleaning
- Data Storage
- Electronic Data Capturing Systems
- Ethical Issues in Data Management
- Data Sharing

Course Fee: USD 275 per participant. Course fees cover course materials, lunch, and refreshments.

Application Details: Please apply by clicking and filling out this form <https://forms.gle/72n1KY07keF4jEdk8> no later **Saturday, 26th October, 2024.**

Training fees can be deposited into the **Research Support Centre account at NBS bank, Account Number 14356274, Ginnery Corner, Swift Code NBSTMWMW.**
